IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants: Jennifer M. Kurtz

Serial No.: 10/666,566

Filed: September 22, 2003

For: "Fuel and Air Flow Control in a Multi-Stack Fuel Cell Power Plant"

Docket No.: C-3045

Group: 1745

Examiner: T. Parsons

RESPONSE D

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This is responsive to the office action dated April 26, 2006. In the office action the legal instruments examiner Harold Smith stated that the amendment filed April 19 was non-compliant due to a lack of status indentifiers for each of the claims in the listing of the claims. This allegation is incorrect, but examiner Smith clarified over the telephone to the undersigned that Claim 1 which is properly identified as (currently amended) does not have any indication of where the amended portion is. Examiner Smith requested a revised listing of the claims having the word "single" underlined therein in the same fashion as that claim is presented on page 2 of the response. Such a listing of the claims is presented herewith.

Respectfully submitted,

*William W. Jones*
